Health The Nightingale Pledge

I solemnly pledge myself before god & presence of this assembly. To pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous. And will in my power to maintain and elevate the standard of my profession. And will hold in all confidence all personal matters committed to my keeping. And family affairs coming to my knowledge in the practice of my calling with loyalty. I will Endeavour to aid the physician in his work. And devote myself to the welfare of those committed to my care.

Mother Teresa

Teresa wrote in her diary that her first year was fraught with difficulties. She had no income and had to resort to begging for food and supplies. Teresa experienced doubt, loneliness and the temptation to return to the comfort of convent life during these early months. She wrote in her diary:

Our Lord wants me to be a free nun covered with the poverty of the cross. Today I learned a good lesson. The poverty of the poor must be so hard for them. While looking for a home I walked and walked till my arms and legs ached. I thought how much they must ache in body and soul, looking for a home, food and health. Then the comfort of Loreto [her former order] came to tempt me. 'You have only to say the word and all that will be yours again, the Tempter kept on saying... Of free choice, my God, and out of love for you, I desire to remain and do whatever be your Holy will in my regard. I did not let a single tear come.

Nursing College Introduction

Jay Samka Kalyani Shikshan Wa. Bahuddeshiya Sanstha has been established taking inspiration from the Mother Teresa thought of social service in 1998. This organization has been ahead in other social, educational, health educational activities and it has early participated in many Government schemes.

In order to fulfill the acute shortage of trained nursing personnel, the MOTHER, TERESA COLLEGE OF NURSING was established in 2011 and was attached to the Polyclinic, offering "Three Years' Diploma Course in Revised General Nursing and Midwifery (RGNM) following the MSBNPE Maharashtra Nursing Council, INC Syllabus & Director, Medical Education & Research. At present it is being managed by a well qualified faculty and is well known for its high standard of Nursing Education and excellence in academic achievement.

The College is planned for doing pioneering work, in the field of Nursing Education and for imparting professional expertise, to the young aspirants, who will be groomed to dedicate themselves to the service of humanity. The collegiate programme is being initiated and organised by Jay Samka Kalyani Shikshan Wa. Bahuddeshiya Sanstha

According to World Health Organization (WHO) i.e." Health is state of complete physical mental and social well being and not merely the absence of disease or infirmity. " Health is a fundamental human right. Maintenance of optimum level of health entails individual as well as social responsibility. However health can never be adequately protected by health services without active involvement of the community. The organization & the school of nursing believes in the concept that Nursing is a health care profession focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal Health and quality of life from conception to death. Nursing practice is the actual provision of nursing care. In providing care, nurses implement the nursing care plan using the nursing process. This

is based around a specific nursing theory which is selected based on the care setting nursing care, the nurses uses both nursing theory and best practice derived from nursing research. The trust also recognizes that the nature of nursing is such that a substantial portion of learning of student is acquired in the clinical fields of practice. It further recognizes the interdependence of nursing and allied professions and occupations in promoting, maintaining and restoring health and prevention of diseases. The organization believes that it has responsibility in helping the student to develop pride in their profession besides keeping them abreast with current knowledge and professional trends for a successful career ahead. General Nurse Midwife (GNM) play major role in improvement of rural health care delivery system. She should be sensitive and accountable to meet the health needs of the Community. She should be able to provide accessible, equitable, affordable and quality health care. We strongly believes in preparing skilled and effective female Health workers to achieve the goals of WHO which aims at bringing about dramatic improvement in the health system and health status of the state and country

MISSION

As per emerging Nursing Educational Institution we dedicate our self to the highest standard of Nursing Education and Research in core and enhance professional discipline.

We strive for the over all personality development of the students and nurture them through holistic development approach.

As we grow, we will expand into new educational technologies Methodologies and disciplines.

MOTHER TERESA COLLEGE OF NURSING

"Technical & Nursing support through excellent Health care education"

Modern Nursing is a dynamic, therapeutic and educative process in meeting the health needs of the individuals, the family and community. Nursing is one of the health professions which functions in conjunction with other health care agencies in assisting individuals, families and communities to achieve and maintain desirable standards of health.

Our association believes in the concept of health as laid down by the World Health Organization (WHO) i.e., "Health is a state of complete physical, mental, social and spiritual well being and not merely absence of disease or infirmity".

Since, nurses provided and will undoubtedly continue to provide large part of health care, their training should equip them with professional expertise to meet the changing demands of society and their expanding role there in. To achieve this, emphasis must be laid to impart the knowledge and skills most relevant to the health care needs of the community and the country as a whole. This must also be accompanied by a corresponding change in the professional attitudes.

The international Council of Nurses states that the unique function of the nurse is to assist the individual, sick or well, in the performance of those activities contributing to health or its recovery (or to peaceful death) that he would perform unaided if he had the necessary strength, will or knowledge.

And to do this in such a

MOTHER TERESA COLLEGE OF NURSING

way as to help him gain independence as rapidly as possible. Basic Nursing Education is a formally recognized programme of study providing a broad and sound foundation in the behavioral, life and nursing sciences for the general practice of nursing for a leadership role and for the post basic education in specialties for advanced nursing practice. We believe that this basic courses in nursing should prepare nurses for occupying first level positions in nursing in all kinds of health care settings. We recognize that the nursing is a profession, which is influenced by advances in science and technology. We believe that skills in all aspects of communication are essential for learning and for the practice of the nursing.

We recognize that the nature of the nursing is such that the substantial portion of learning of the students is acquired in clinical fields of practice. We further recognize the interdependence of nursing and allied professions and occupations in promoting, maintaining and restoring health and prevention of the diseases. Our association strongly that it has a responsibility in helping the students to develop pride in their profession besides keeping them abreast with current knowledge and professional trends for a successful career ahead and prove that "Quality care can be achieved only through excellent nursing education."
